

OLIVER BONAS

MARBLE

Marble is made from calcium and will react to acid, spoiling the natural look. Avoid contact with acidic liquids e.g lemon juice.

Do NOT use abrasive cleaners that can mark the surface.

CLEANING INSTRUCTIONS

Marble is a natural product and colour may vary

Wipe up any spills immediately with a damp cloth and then dry the surface with a clean dry duster.

CAUTION

Marble is porous, and some foods may naturally leave a stain
For stubborn stains use a mild dishwashing up liquid and a soft damp cloth

1. Mix warm water and gentle washing up liquid:
Don't use anything with acid or lemon juice.
2. Wipe the surface with the soapy solution.
3. Followed by a hot, wet dish cloth to remove any soapy residue
4. Dry with a soft absorbent towel: buff with a soft, absorbent towel.

This is a recommendation only.

Not Dishwasher safe.
