CARING FOR YOUR UPHOLSTERED FURNITURE

To ensure that your upholstered furniture is kept in pristine condition lightly vacuum (low power, avoid high power suction) to pick up any fluff or marks that have been left. If you do this regularly, your upholstered product will remain in the best condition.

NEVER use water to clean fabric – use a dry cloth to remove surface moisture. Always dab the affected area, do NOT rub.

It is always advisable to use a specialist upholstery cleaning service.

For best results with more stubborn stains, use a reputable specialist upholstery cleaning service.

Dust the wooden legs with furniture polish and a cloth. Please be careful not to get polish on the fabric as this may cause staining.

Do not drag your upholstery as it may damage the joints and mark your floor.

Avoid sharp objects. Indoor use only.
